Track-summary PCA–Ridge calibration and region accuracy
A
log E_b: truth vs prediction
Observed 90% coverage: 92%
$n = 50$ frozen test patients
90% conformal band ±0.091
$y = x$
Covered case
Not covered
Predicted log E_b
True log E_b
B
log r: truth vs prediction
Observed 90% coverage: 90%
$n = 50$ frozen test patients
90% conformal band ±0.408
$y = x$
Covered case
Not covered
Predicted log r
True log r
C
Heterogeneous-case region errors
median center 7.0%
median radius 9.9%
$n = 42$; dashed = ceilings
Patient-level error (%)
